EXPERIENCE

- Software Developer – Ace Data Analytics, Ahmedabad**

Feb 2023 - Present

 - Collaborated and coordinated with project leads and developers to gather requirements and establish project objectives and deliverables.
 - Spearheaded the development of a robust payroll management system for an Australia-based food warehouse and distribution company. Responsibilities included designing and implementing seamless onboarding process for new employees, streamlined tracking of employee attendance, punch-in/punch-out records, and accurate calculation of wages.
 - Developed a dynamic configuration system within a loan application, empowering administrators to customize commission structures for diverse agent tiers, with animated workflows facilitating smooth navigation and user engagement.
 - Specialized in crafting appealing designs, integrating APIs for real-time data, and implementing seamless frontend functionalities to create user-friendly applications.
- React JS Developer Intern – Mirats Insights LLC, Mumbai**

Apr 2023 - Sep 2023

 - Worked closely with the development team across various projects, leveraging expertise in React JS, Next JS, and Firebase.
 - Created a versatile note-taking application using React JS, Material UI, and Firebase, boasting features such as rich-text formatting, image and link embedding, and seamless data storage.
- Frontend Developer Intern – Healohub Technologies, Bengaluru**

Sep 2022 - Dec 2022

 - Managed all frontend responsibilities of the company as the sole Frontend Developer.
 - Designed and implemented the frontend interface for a video call analytics section, empowering users to gain actionable insights and discern trends from their video conversations.

PROJECTS

- Hire It - Job Portal Application** | Technology used – React JS, SCSS, Node JS, Mongo DB | [View Project](#)

 - A comprehensive job portal platform facilitates seamless interaction for both job seekers and employers, empowering users to efficiently explore and apply for relevant job opportunities, while providing employers with a streamlined platform to post and manage their openings.
- Blog Website** | Technology used – React JS, SCSS, Node JS, Mongo DB | [View Project](#)
